WYCLIFFES WILL SURRENDER

Cherokee Outlaws Arrange to Give Up to County Authorities on Statehood Day.

Muskogee, I. T., Nov. 13.—Tom, Charlie and Jim Wycliffe, the three Cherokee outlaws who, after killing a deputy marshal, have defied the efforts of the government to capture them for more than a year, have announced that they will voluntarily surrender at Tahlequah, Saturday, immediately after the statehood proclamation has been issued and the present regime of marshals in Indian Territory is out of office.

The surrender of the Wycliffes will be one of the big features of the statehood celebration at Tahlequah. The plan of the Wycliffes seems to be complete. Through their friends they have conducted negotiations with the county officers-elect of Cherokee county, made arrangements to give bond and in all probability, they will not go to jail at all but will be released upon their bond.

The career of the Wycliffes has been spectacular. While scouting from the officers, charged with murder on March 11, 1906, they ambushed and killed Deputy Marshal Ike Gilstrap, who, with a posse, was after them, and wounded two deputies. The fight took place in a ravine in the Spavnow hills. Marshal Darrough called upon the government for assistance in running down the Wycliffes. He was given 100 picked men and a month was spent in the pursuit, but the Wycliffes were never approached by an officer and they were never more than 50 miles from the scene of ambush.

The bitter hatred of the Cherokees for the officers and the extremely rough country enabled the outlaws to

elude their pursuers successfully. Bloodhounds were put on the trail and the hounds were killed. Marshal Darrough finally gave up, thoroughly baffled. The chase cost the government about \$6,000.

In the meantime the movements of the Wycliffes were well known to their friends, and newspaper men went into the fastnesses of the Cherokee hills, sought out the outlaws, found them and got their statements.

They have always declared that they were willing to stand trial in the state courts and could prove ample justification for killing Gilstrap, but they could not get a fair trial at the hands of the federal officials.

It is understood that one of the pleas of the defense will be that Gilstrap went to the home of Charlie Wycliffe and insulted Mrs. Wycliffe and that the father of the three outlaws had been nearly beaten to death by another deputy marshal because he refused to give information as to the whereabouts of the boys.

MAJOR CUSEY TAKES MORE APPLICATIONS.

Major Cusey, who has become a familiar visitor in Ada, due to his frequent tours of Territory towns, representing the U. S. Indian agent in receiving applications for the removal of restrictions and taking testimony in support of same, made Ada again Tuesday and Wednesday.

On this trip he handled some 18 applicants here.

REFUSES RELIEF TO OIL MEN

Secretary of Interior Declines to Modify Rules Governing Leases.

Washington, Nov. 13.—Secretary Garfield yesterday listened to the protests of a committee of twenty representing the Mid-Continent Oil Producers association against a recent amendment to the regulations of the interior department governing oil leases in Indian Territory.

Secretary Garfield stated that the regulations had only been made after mature deliberation and he intimated that they probably would not be changed.

The amendment authorizes the secretary to increase the royalty to be paid to the Indian allottees to the extent of sixteen and two-thirds per cent of the gross proceeds amounting from any lease, and three hours of time were spent in trying to convince the secretary that the regulation is unbusiness-like and may be used to work great hardships.

It was contended that even after a

contract had been entered into the secretary could arbitrarily increase the amount to be paid to the Indians without even consulting the lessee. This, it was urged was unnecessary because the Indians are largely of white blood and can care for their own interests.

The principal speakers were N. Y. Franchot of Olean, N. Y.; W. H. Johnston of Bartlesville, I. T.; James H. Veasy of Bartlesville, and Representative E. B. Vreeland of New York. With the secretary sat Assistant Attorney General Woodruff, Commissioner of Indian Affairs Leupp and several other representatives of the interior department who assisted in formulating the regulations.

Mr. Woodruff declared in response to some of the representations that no increase in the royalty had ever been exacted except in cases of assignment in which case, he contended, it was entirely fair.

CARTER'S MAJORITY

Tishomingo, I. T., Nov. 12.—C. D. Carter's plurality in the primary, 3,777; C. D. Carter's plurality in the general election, 13,931.

It having come to our notice that an erroneous report is being circulated in regard to the majority received by Congressman-elect C. D. Carter, in the recent primary and general elections, and believing that such false reports were circulated in the interest of the contest of Loren G. Disney, we herewith give a statement of the entire vote received by Carter, and his next highest opponent in such elections.

In the interest of fairness, we ask all readers to publish the same over our official signatures.

Primary election—Carter, 11,147; Linebaugh, next highest opponent, 7,270; Carter's plurality in primary, 3,777.

General Election—C. D. Carter, 29,856; L. G. Disney, next highest opponent, 15,925; Carter's plurality, 13,931.

This embraces the full vote with the exception of about three hundred votes polled in the southeast corner of Mus-

kogee county, at the primary election which was never officially reported to us. Respectfully,

H. L. MULBROW,

Chairman Democratic Congressional Committee 4th Congressional District of Oklahoma.

Food High in India.

In a report commenting on the unrest in India, the United States consul general at Calcutta ascribes the reason for much of the dissatisfaction to the high prices of foodstuffs. He says: "During the last three years the harvests in Eastern Bengal and Assam have been considered poor, especially the rice crop, which is the staple food of the laboring and poor classes. In 1904 1 rupee (32 cents) would buy twenty-six pounds of rice, whereas in 1906 it would buy only ten pounds and in 1907 about eight pounds. Thus the Indian, whose main subsistence is rice has to pay nearly three times as much for that article now as he did in 1904. For the most part his wages have not increased at all, and where wages have been advanced not a single instance can be found where the increase has been three times. The food grain crops of 1907 promise to be very large, and it will be interesting to note any tendency to return to the prices of food grains, especially rice, that prevailed three years ago, and what effect if any, this return to normal prices will have on the condition of 'unrest' in Eastern Bengal and Assam."

RECEPTION AT THE KATZ HOME.

Society People of Ada Enjoy a Brilliant Function.

Not often in Ada is there given so splendid a social function as that at the home of Mr. and Mrs. Ben Katz, Tuesday evening.

The invitations read: "Beatie Katz would be honored to have your presence to meet her sister, Jessie, Tuesday evening, November the Twelfth, 1907, from 8 to 12." Miss Jessie recently came out from Kentucky to join the family in their new home in Ada.

There were some thirty invited guests and during the hours designated there was a continuous program of rare entertainment. The spacious parlors were appropriately decorated, the refreshments were notably delicious and elegantly served, and the arrangements throughout were such as to constitute an illustrious example in the art of entertaining.

An early feature, after arrival of guests was an auction sale of the ladies, each sale based on self-boosting data written on cards previously furnished the fair one to be put on the block. At first the gentlemen were a bit timid about bidding, fearing the price had to be paid in cash. But when it became generally known that checks or promissory notes or counterfeit money were just as good, the bidding became fast and furious. Toward the last a lady brought as much as \$10,000,000, and she would have brought more, but for the fact that the other fellow was uneducated and so, did not know how to prize the price any higher.

There was an infinite variety of fun and food. At a late hour the guests departed with a lasting remembrance of their gracious and charming hostesses, the Misses Katz.

There were present: Misses Torbett, Fulton, Timberlake, Smith, Thompson, Sims, Gowdey, Taylor, Gwyn, Edleman, Verna Eddleman, Warren, Stovall, Harrell, Carr.

Messrs. Clark, Epperson, Warren, Thompson, Haraway, Mays, Parker, Ennis, Pitchlynn, Wandelohr, Timberlake, Weaver, Eddleman.

Out of town guests: Miss Sadie James of Ardmore and Dr. J. T. Moore of Enid.

RAILS-CLOYD.

At the home of the bride's parents, Mr. and Mrs. J. P. Eddleman, Tuesday evening, Mr. E. M. Ralls and Mrs. Mattie Cloyd were united in marriage. The ceremony occurred at 7:15 o'clock conducted by Rev. E. L. Kirtley, pastor of the First Christian church, and only members of the family were present.

Soon after the ceremony the couple left for their future home, Los Angeles, Calif. The bride is well known in Ada and enjoys the highest esteem of our people. Her numerous friends will wish her lines to be cast in most pleasant places, their only regret being that she is to reside so far away from the old home. Mr. Ralls until recently was in the employ of the M. & K. & T. railway, but has resigned to accept a position with the Santa Fe in California. He is reputed to be a gentleman altogether worthy of the noble woman he has won.

One of the most pleasing features in "Rufus Rastus in Dixie" is the Fiske Chapel Choir. Carefully trained voices with the accompaniment of a specially built pipe organ, carried by the company, render sacred music that reaches the soul. The rich setting and costuming also leave a deep impression, not soon to be forgotten. Don't fail to see and hear this great feature at the opera house next Thursday night, Nov. 14.

DISNEY'S LAMENTABLE STUNT.

One Loren G. Disney, who imagined he was a candidate for congress in the Fourth district against Charlie Carter, is making several kinds of ass of himself. Carter was elected by a majority of 13,931. His district is solidly democratic and it was only at odd moments that the present congressman was aware that Disney was a candidate against him. Carter carried Atoka, Disney's home town, which is normally republican, by a big majority and also won out in several other republican strongholds. The people wanted Carter and they elected him. Now comes Disney, the defeated, backed by a few disgruntled statehood obstructionists, with a contest against Carter. He holds that Carter is not entitled to citizenship rights under the constitution. The play is obvious. Disney is fresh and premature. He came to Oklahoma from Kansas two years ago with a commission as contest clerk with the Dawes commission. This office he vacated for unknown reasons. Whether invited out or kicked out is unknown. Disney made a vicious fight on Carter and attempted to array white voters against him on account of his Indian blood. During the past few years the republican leaders have been zealous in their "friendship for the Indian. Their love for the Indian is clearly emphasized in the present contest. Disney is a mere atom; he has no weight or influence on Oklahoma citizenship by a contest of the kind carried to congress and then aired. Of course, Carter will take his seat and retain it; and meanwhile Disney will draw a doleful fee while it pends, but the effects will be unpalatable. Decent republicans should call off Disney.—Guthrie Lader.

The Royal Northwest mounted police, after two years' work, have cut an eight-foot trail from Peace river through the Rocky mountains to the Yukon, giving a route from Edmonton to Dawson entirely over Canadian territory. Colonel White, controller of the mounted police, has received a telegram announcing a triumphant arrival at the Pacific coast after a 700-mile ride on the trail from Edmonton. The trail has been built to Hazelton, where it joins the trail along the Yukon telegraph line, and thus continues to Dawson. Besides affording access to a hitherto inaccessible portion of the country, it will be useful in the transportation of prisoners, who would be able to take advantage of territorial law immediately if transported over the usual route of travelers, which crosses American territory.

STOMACH CATARRH.

Miss Mary O'Brien, 306 Myrtle Ave., Brooklyn, N. Y., writes: "Peruna cured me in five weeks of catarrh of the stomach, after suffering for four years and doctoring without effect. In common with other grateful ones who have been benefited by your discovery, I say, All hail to Peruna."

Mr. H. J. Henneman, Oakland, Neb., writes: "I waited before writing to you about my sickness, catarrh of the stomach, which I had over a year ago."

"There were people who told me it would not stay cured, but I am sure that I am cured, for I do not feel any more ill effects, have a good appetite and am getting fat. So I am, and will say to all, I am cured for good."

"I thank you for your kindness. 'Peruna will be our house medicine hereafter.'"

Catarrh of the stomach is also known in common parlance as dyspepsia, gastritis and indigestion. No medicine will be of any permanent benefit except it removes the catarrhal condition.

Gained Strength and Flesh.

Miss Julia Butler, R. R. 4, Appleton, Wis., writes she had catarrh of the stomach, causing loss of sleep and appetite, with frequent severe pains after eating. She took Peruna, her appetite returned, she gained strength, flesh and perfect health.

TOLD HIM THE TRUTH.

Dad's Indignation Got the Better of His Judgment.

An old German farmer, who resided in one of the rural districts of the state of Iowa, was the father of a half-witted boy, whose lack of intellect was the cause of no little anxiety and solicitude on the part of the paternal parent.

"Dot boy Shon," he was heard to remark in the course of a conversation with a neighbor of like Teutonic origin, "he iss not ferry bright, aber I ton't vant you to tell him because I ton't vant him to know it."

Meanwhile the young hopeful was driving through the barnyard with a load of hay, which in attempting to turn a sharp corner he unfortunately upset.

The old man immediately became highly indignant. "Shon!" he bellowed in a voice of thunder, "you iss a plame fool, you always vass a fool, you always vill pe a fool, you not know noddings."—Judge's Library.

Of Little Faith.

At the Pine Grove camp ground in Canaan, Conn., a little girl was removed by her mother for disobedience and being naughty to her playmates. The child was told that when she said her prayers at night she should seek forgiveness and ask the Lord to help her be a better girl. Here is the prayer which the youngster made under protest:

"Oh, Lord, I want you to help me to mind my mamma, to help me to be a better girl, to help me to be good to my playmates, to—but, pshaw, Lord, what's the use? I spect you don't believe half I'm saying."

FAMILY FOOD.

Crisp, Toothsome and Requires No Cooking.

A little boy down in N. C. asked his mother to write an account of how Grape-Nuts food had helped their family.

She says Grape-Nuts was first brought to her attention on a visit to Charlotte, where she visited the Mayor of that city who was using the food by the advice of his physician. She says:

"They derive so much good from it that they never pass a day without using it. While I was there I used the Food regularly. I gained about 15 pounds and felt so well that when I returned home I began using Grape-Nuts in our family regularly."

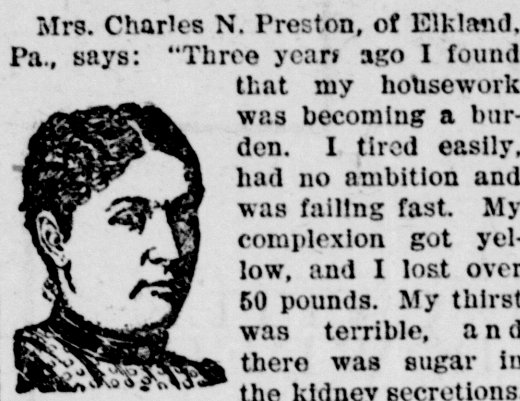

"My little 18 months old baby shortly after being weaned was very ill with dyspepsia and teething. She was sick nine weeks and we tried everything. She became so emaciated that it was painful to handle her and we thought we were going to lose her. One day a happy thought urged me to try Grape-Nuts soaked in a little warm milk."

"Well, it worked like a charm and she began taking it regularly and improvement set in at once. She is now getting well and round and fat as fast as possible on Grape-Nuts."

"Sometime ago several of the family were stricken with LaGrippe at the same time, and during the worst stages we could not relish anything in the shape of food but Grape-Nuts and oranges, everything else nauseated us. 'We all appreciate what your famous food has done for our family.' 'There's a Reason.' Read 'The Road to Wellville,' in pgs.

My doctor kept me on a strict diet, but as his medicine was not helping me, I began using Doan's Kidney Pills. They helped me at once, and soon all traces of sugar disappeared. I have regained my former weight and am perfectly well."

A Pardonable Fault.

Dr. Edward Everett Hale, discussing a rather finicky attack that had been made on certain recent statements, smiled and said:

"But who or what is blameless? It is like the case of the Scottish hen. An old Scottish woman wished to sell a hen to a neighbor."

"But tell me," the neighbor said, "is she a'thegither a guld bird? Has she got nae fauts, nae fauts at all?"

"Aweel, Margot," the other old woman admitted, "she has got one fault. She will lay on the Lord's day."

Dear Sir:—I have just returned from a tour of three days' inspection of your Atascosa County Texas Ranch and I will gladly say that I found it equally as good as you claim, and I believe, is even better, at least 95 per cent. of the land would be fine farming land.

Well, as to the size of the body of the land, it is as fine as I ever saw. When this section gets a railroad, which it soon will have, and must have, as the country demands it, that section will be equal in value with any section in the state, because you can grow whatever you wish to plant, and it can be kept growing, with the abundance of water which is obtainable either in shallow or artesian wells.

I find sufficient timber for posts, and wood, the balance of the land is mostly prairie, with some small brush and pear.

Yours truly,

WYCLIFFES WILL SURRENDER

Cherokee Outlaws Arrange to Give Up to County Authorities on Statehood Day.

Muskogee, I. T., Nov. 13.—Tom, Charlie and Jim Wycliffe, the three Cherokee outlaws who, after killing a deputy marshal, have defied the efforts of the government to capture them for more than a year, have announced that they will voluntarily surrender at Tahlequah, Saturday, immediately after the statehood proclamation has been issued and the present regime of marshals in Indian Territory is out of office.

The surrender of the Wycliffes will be one of the big features of the statehood celebration at Tahlequah. The plan of the Wycliffes seems to be complete. Through their friends they have conducted negotiations with the county officers of Cherokee county, made arrangements to give bond and in all probability, they will not go to jail at all but will be released upon their bond.

The career of the Wycliffes has been spectacular. While scouting from the officers, charged with murder on March 11, 1896, they ambushed and killed Deputy Marshal Ike Gilstrap, who, with a posse, was after them, and wounded two deputies. The fight took place in a ravine in the Grayhaw hills. Marshal Darrough called upon the government for assistance in running down the Wycliffes. He was given 100 picked men and a month was spent in the pursuit, but the Wycliffes were never approached by an officer, and they were never more than 50 miles from the scene of ambush.

The bitter hatred of the Cherokees for the officers and the extremely rough country enabled the outlaws to

elude their pursuers successfully. Bloodhounds were put on the trail and the hounds were killed. Marshal Darrough finally gave up, thoroughly baffled. The chase cost the government about \$6,000.

In the meantime the movements of the Wycliffes were well known to their friends, and newspaper men went into the fastnesses of the Cherokee hills, sought out the outlaws, found them and got their statements.

They have always declared that they were willing to stand trial in the state courts and could prove ample justification for killing Gilstrap, but they could not get a fair trial at the hands of the federal officials.

It is understood that one of the ideas of the defense will be that Gilstrap went to the home of Charlie Wycliffe and insulted Mrs. Wycliffe and that the father of the three outlaws had been nearly beaten to death by another deputy marshal because he refused to give information as to the whereabouts of the boys.

REFUSES RELIEF TO OIL MEN

Secretary of Interior Declines to Modify Rules Governing Leases.

Washington, Nov. 13.—Secretary Garfield yesterday listened to the protests of a committee of twenty representing the Mid-Continent Oil Producers association against a recent amendment to the regulations of the interior department governing oil leases in Indian Territory.

Secretary Garfield stated that the regulations had only been made after mature deliberation and he intimated that they probably would not be changed.

The amendment authorizes the secretary to increase the royalty to be paid to the Indian allottees to the extent of sixteen and two-thirds per cent of the gross proceeds amounting from any lease, and three hours of time were spent in trying to convince the secretary that the regulation is unbusinesslike and may be used to work great hardships.

It was contended that even after a

contract had been entered into the secretary could arbitrarily increase the amount to be paid to the Indians without even consulting the lessee. This, it was urged was unnecessary because the Indians are largely of white blood and can care for their own interests.

The principal speakers were N. Y. Franchot of Olean, N. Y.; W. H. Johnston of Bartlesville, I. T.; James H. Vandy of Bartlesville, and Representative E. B. Vreeland of New York. With the secretary sat Assistant Attorney General Woodruff, Commissioner of Indian Affairs Leupp and several other representatives of the interior department who assisted in formulating the regulations.

Mr. Woodruff declared in response to some of the representations that no increase in the royalty had ever been exacted except in cases of assignment in which case, he contended, it was entirely fair.

CARTER'S MAJORITY

Tishomingo, I. T., Nov. 12.—C. D. Carter's plurality in the primary, 3,777; C. D. Carter's plurality in the general election, 15,981.

It having come to our notice that an erroneous report is being circulated in regard to the majority received by Congressman-elect C. D. Carter, in the recent primary and general elections, and believing that such false reports were circulated in the interest of the contest of Loren G. Disney, we heretofore gave a statement of the entire vote received by Carter and his next highest opponent in such elections.

In the interest of fairness, we ask all reports to publish the same over our official signatures.

Primary election—Carter, 11,147; Disney, next highest opponent, 7,370; Carter's plurality in primary, 3,777.

General Election—C. D. Carter, 29,854; L. G. Disney, next highest opponent, 15,981; Carter's plurality, 13,873.

This embraces the full vote with the exception of about three hundred votes polled in the southeast corner of Mus-

kogee county, at the primary election, which was never officially reported to us. Respectfully,

Chairman Democratic Congressional Committee 4th Congressional District of Oklahoma.

Food High in India.

In a report commenting on the unrest in India, the United States consul general at Calcutta ascribes the reason for much of the dissatisfaction to the high prices of foodstuffs. He says: "During the last three years the harvests in Eastern Bengal and Assam have been considered poor, especially the rice crop, which is the staple food of the laboring and poor classes. In 1901 1 rupee (32 cents) would buy twenty-six pounds of rice, whereas in 1906 it would buy only ten pounds and in 1907 about eight pounds. Thus the Indian, whose main subsistence is rice has to pay nearly three times as much for that article now as he did in 1901. For the most part his wages have not increased at all, and where wages have been advanced not a single instance can be found where the increase has been three times. The food grain crops of 1907 promise to be very large, and it will be interesting to note any tendency to return to the prices of food grains, especially rice, that prevailed three years ago, and what effect it may, this return to normal prices will have on the condition of 'unrest' in Eastern Bengal and Assam."

RECEPTION AT THE KATE HOME.

Society People of Ada Enjoy a Brilliant Function.

Not often in Ada is there given so splendid a social function as that at the home of Mr. and Mrs. Ben Kats, Tuesday evening.

The invitations read: 'Beeste Kats would be honored to have your presence to meet her sister, Jessie, Tuesday evening, November the Twelfth, 1907, from 8 to 12.' Miss Jessie recently came out from Kentucky to join the family in their new home in Ada.

There were some thirty invited guests and during the hours designated there was a continuous program of rare entertainment. The spacious parlors were appropriately decorated, the refreshments were notably delicious and elegantly served and the arrangements throughout were such as to constitute an illustrious example in the art of entertaining.

An early feature, after arrival of guests was an auction sale of the ladies, each sale based on self-boasting data written on cards previously furnished the fair ones to be put on the block. At first the gentlemen were a bit timid about bidding, fearing the price had to be paid in cash. But when it became generally known that checks or promissory notes or counterfeit money were just as good, the bidding became fast and furious. Toward the last a lady brought as much as \$10,000,000, and she would have brought more, but for the fact that the other fellow was uneducated and so, did not know how to prize the price any higher.

There was an infinite variety of fun and food. At a late hour the guests departed with a lasting remembrance of their gracious and charming hostesses, the Misses Kats.

There were present Misses Torbett, Fulton, Timberlake, Smith Thompson, Sims, Gowdey, Taylor, Gwyn, Edleman, Verna Edleman, Warren Stovall Harrell, Carr.

Messrs. Clark, Epperson, Warren Thompson, Haraway, Mays, Parker, Kniss, Pitchlynn, Wandeloht, Timberlake, Weaver, Edleman.

Out of town guests, Miss Sadie James of Ardmore and Dr. J. T. Moore of Enid.

Take your old clothes to Berry at Crowder's Barber shop, he will make them like new.

RAILS-CLOYD.

At the home of the bride's parents Mr. and Mrs. J. P. Edleman, Tuesday evening Mr. E. M. Ralls and Mrs. Mattie Cloyd were united in marriage. The ceremony occurred at 7:15 o'clock, conducted by Rev. E. L. Kirtley pastor of the First Christian church, and only members of the family were present.

Soon after the ceremony the couple left for their future home, Los Angeles Calif. The bride is well known in Ada and enjoys the highest esteem of our people. Her numerous friends will wish her lines to be cast in most pleasant places, their only regret being that she is to reside so far away from the old home. Mr. Ralls until recently was in the employ of the M. & K. & T. railway, but has resigned to accept a position with the Santa Fe in California. He is reputed to be a gentleman altogether worthy of the noble woman he has won.

Getting Ready for Show Week.
Chas. Long, advance agent for the Lachman-Loss Hippodrome Shows, arrived in Ada last evening to make final arrangements for the coming of that company next week. This company furnishes the attractions for the Fremont street fair and jubilee all next week. From advance reports received from other cities where the company has exhibited this is one of the cleanest carnival companies in existence tolerating no immoral shows of any description. This company consists of 12 great attractions, uniformed brass band and three sensational free acts, and will exhibit on the streets of Ada all next week under auspices of the Ada fire department.

DISNEY'S LAMENTABLE STUNT.

One Loren G. Disney, who imagined he was a candidate for congress in the Fourth district against Charlie Carter, is making several kinds of ass of himself. Carter was elected by a majority of 13,931. His district is solidly democratic and it was only at odd moments that the present congressman was aware that Disney was a candidate against him. Carter carried Atoka, Disney's home town, which is normally republican, by a big majority and also won out in several other republican strongholds. The people wanted Carter and they elected him. Now comes Disney, the defeated, backed by a few disgruntled statehood obstructionists, with a contest against Carter. He holds that Carter is not entitled to citizenship rights under the constitution. The play is obvious. Disney is fresh and premature. He came to Oklahoma from Kansas two years ago with a commission as contest clerk with the Dawes commission. This office he vacated for unknown reasons. Whether invited out or kicked out is unknown. Disney made a vicious fight on Carter and attempted to array white voters against him on account of his Indian blood. During the past few years the republican leaders have been zealous in their "friendship for the Indian. Their love for the Indian is clearly emphasized in the present contest. Disney is a mere atom, he has no weight or influence on Oklahoma citizenship by a contest of the kind carried to congress and then aired. Of course, Carter will take his seat and retain it; and meanwhile Disney will draw a doleful fee while it pends, but the effects will be unpalatable. Decent republicans should call off Disney—Guthrie Lader.

The Royal Northwest mounted police, after two years' work, have cut an eight-foot trail from Peace river through the Rocky mountains to the Yukon, giving a route from Edmonton to Dawson entirely over Canadian territory. Colonel White, controller of the mounted police, has received a telegram announcing a triumphant arrival at the Pacific coast after a 700-mile ride on the trail from Edmonton. The trail has been built to Hazelton, where it joins the trail along the Yukon telegraph line, and thus continues to Dawson. Besides affording access to a hitherto inaccessible portion of the country, it will be useful in the transportation of prisoners, who would be able to take advantage of territorial law immediately if transported over the usual route of travelers which crosses American territory.

A Case of STOMACH CATARRH.

Miss Mary O'Brien, 306 Myrtle Ave., Brooklyn, N. Y., writes: "Peruna cured me in five weeks of catarrh of the stomach, after suffering for four years and doctoring without effect. In connection with other grateful ones who have been benefited by your discovery, I say, All hail to Peruna."

Mr. H. J. Henneman, Oakland, Neb., writes: "I waited before writing to you about my sickness, catarrh of the stomach, which I had over a year ago."

"There were people who told me it would not stay cured, but I am sure that I am cured, for I do not feel any more ill effects, have a good appetite and am getting fat. So I am, and will say to all: I am cured for good."

"I thank you for your kindness. Peruna will be our house medicine hereafter."

Catarrh of the stomach is also known in common parlance as dyspepsia, gastritis and indigestion. No medicine will be of any permanent benefit except it removes the catarrhal condition.

Gained Strength and Flesh.

Miss Julia Butler, R. R. 4, Appleton, Wis., writes she had catarrh of the stomach, causing loss of sleep and appetite, with frequent severe pains after eating. She took Peruna, her appetite returned, she gained strength, flesh and perfect health.

TOLD HIM THE TRUTH.

Dad's Indignation Got the Better of His Judgment.

An old German farmer, who resided in one of the rural districts of the state of Iowa, was the father of a half-witted boy, whose lack of intellect was the cause of no little anxiety and solicitude on the part of the paternal parent.

"Dot boy Shon," he was heard to remark in the course of a conversation with a neighbor of like "Tautonic origin," "he is not ferri bright, aber I don't want you to tell him, because I don't want him to know it."

Meanwhile the young hopeful was driving through the barnyard with a load of hay, which in attempting to turn a sharp corner he unfortunately upset.

The old man immediately became highly indignant. "Shon!" he bellowed in a voice of thunder, "you is a plame fool, you always vass a fool, you always vill pe a fool, you not know noddings!"—Judge's Library

Of Little Faith.

At the Pine Grove camp ground in Canaan, Conn., a little girl was removed by her mother for disobedience and being naughty to her playmates. The child was told that when she said her prayers at night she should seek forgiveness and ask the Lord to help her be a better girl. Here is the prayer which the youngster made under protest:

"Oh, Lord, I want you to help me to mind my mamma, to help me to be a better girl, to help me to be good to my playmates, to—but, pshaw, Lord, what's the use? I expect you don't believe half I'm saying."

FAMILY FOOD.

Crisp, Toothsome and Requires No Cooking.

A little boy down in N. C. asked his mother to write an account of how Grape-Nuts food had helped their family.

She says Grape-Nuts was first brought to her attention on a visit to Charlotte, where she visited the Mayor of that city who was using the food by the advice of his physician. She says:

"They derive so much good from it that they never pass a day without using it. While I was there I used the food regularly. I gained about 15 pounds and felt so well that when I returned home I began using Grape-Nuts in our family regularly."

"My little 18 months old baby shortly after being weaned was very ill with dyspepsia and teething. She was sick nine weeks and we tried everything. She became so emaciated that it was painful to handle her and we thought we were going to lose her. One day a happy thought urged me to try Grape-Nuts soaked in a little warm milk."

"Well, it worked like a charm and she began taking it regularly and improvement set in at once. She is now getting well and round and fat as fast as possible on Grape-Nuts."

"Sometime ago several of the family were stricken with LaGrippe at the same time, and during the worst stages we could not relish anything in the shape of food but Grape-Nuts and oranges, everything else nauseated us. We all appreciate what your famous food has done for our family."

Broken Rails.

Among all the causes of railroad accidents in the United States, none is mentioned with greater frequency than the broken rail. Many causes are assigned, and doubtless many are contributory. An excess of phosphorus, not easily eliminated by the Bessemer process, by which nearly all American rails are made, has been most commonly blamed, but some of the best mechanical engineers now regard this cause as unimportant. Improper shape and a lack of pressure in rolling mod can heavy rails proportionate to that which was available for the lighter rails of the past are more important faults. An excess of carbon is another. The fault of shape is the thinness of the web or shank of the rail, and the thinness of the base. The disproportion between these parts and the head of the rail tends to a lack of uniformity in texture after cooling. The excess of carbon is not the fault of the rail makers, but of the rail roads. The more carbon, the harder the rail, of course, and the harder it is the better it will resist frictional wear. The desire of the railroads to minimize the cost of track repairs has led to demands for steel of a higher and higher per cent of carbon, until now American rails are the hardest in the world. Most important of all, says Youth's Companion is the strain imposed upon rails by the great weight and high speed of modern trains. Mechanical engineers believe that with the present style of rail the limit of safety is reached at an axle load of 15,000 pounds, yet many trains considerably exceed that figure. The American Railway Engineering and Maintenance of Ways association and the American Society for Testing Materials have adopted specifications for a standard rail heavier in the web and the base than those now in use, and these specifications have been approved by the American Society of Civil Engineers. Meanwhile the head of one of the greatest railway systems in America has withdrawn his rail contract from a company whose product has been unsatisfactory to him and given it to a concern from which he hopes to get better results.

Long before many American universities established summer schools, chautauqua stood for the thrifty use of vacation days in pleasant and profitable study. Like every other movement out of the common methods and largely patronized by women, the chautauqua work was derided by conservative persons. It was the butt of jokes such as are now directed against "correspondence schools." It was called the "intellectual tea party," the "playground of culture." But it slowly won respect, enlisted the services of good teachers and gave its brief periods of enlightenment to thousands of teachers too busy in winter to think of much outside of classroom routine. President Roosevelt, who knows the country pretty broadly, calls chautauquas "the most American thing in America." This summer there have been between 300 and 400 assemblies embodying the chautauqua idea, besides the summer schools and educational conventions, which represent the same American principle of diffusing culture and instruction to the greatest possible number of persons.

One of the drawbacks to the use of long distance electricity has been the liability to breakdowns caused by accidents, including those due to lightning, which result in shutting off power and often in unpleasant and costly interruption of traffic. Many localities depending on power transmitted over long lines of wire have had such experiences. Syracuse uses for its transit system electricity generated at Niagara Falls, and has had some very annoying occurrences of the sort, and as a consequence the traction company adopted the policy of keeping its local power houses in readiness for use. Now it is announced that the line from Niagara Falls has been duplicated, and that henceforth it will be practically impossible for the current to be shut off completely. It is asserted most positively that neither thunderstorms nor any other influence can put both lines out of commission at once. At any rate the precaution seems to be a wise one. Electric power that is likely to give out when most needed does not command the confidence of the community it serves.

A woman in a Connecticut town attempted to turn on a switch controlling electric lights by using an iron poker. She was found in an unconscious heap on the other side of the room when the electric excitement over the poker interlude was over, but, being made of stern New England stuff, she recovered from the shock. In spite of its advanced civilization there are yet in this twentieth century people who know no better than to monkey with the buzzsaw.

WORN TO A SKELETON.

Wonderful Restoration Caused a Sensation in a Pennsylvania Town.

Mrs. Charles N. Preston, of Elkland, Pa., says: "Three years ago I found that my housework was becoming a burden. I tired easily, had no ambition and was failing fast. My complexion got yellow, and I lost over 60 pounds. My throat was terrible, and there was sugar in the kidney secretions."

My doctor kept me on a strict diet, but as his medicine was not helping me, I began using Doan's Kidney Pills. They helped me at once, and soon all traces of sugar disappeared. I have regained my former weight and am perfectly well."

A Pardonable Fault.

Dr. Edward Everett Hale, discussing a rather snicky attack that had been made on certain recent statements, smiled and said:

"But who or what is blameless? It is like the case of the Scottish hen. An old Scottish woman wished to sell a hen to a neighbor."

"But tell me," the neighbor said, "is she a'thegither a guid bird? Has she got nae faults, nae fauts at all?"

"Awell, Margot," the other old woman admitted, "she has got one fault. She will lay on the Lord's day."

Dear Sir—I have just returned from a tour of three days' inspection of your Atascosa County Texas Ranch and I will gladly say that I found it equally as good as you claim, and I believe, is even better, at least 95 per cent of the land would be fine farming land. Well, as to the size of the body of the land, it is as fine as I ever saw. When this section gets a railroad, which it soon will have, and must have, as the country demands it, that section will be equal in value with any section in the state, because you can grow whatever you wish to plant, and it can be kept growing with the abundance of water which is obtainable either in shallow or timbered wells. I had sufficient timber for posts and wood, the balance of the land is mostly prairie, with some small brush and pecan. Yours truly, C. M. LINDHOLM.

OLD SORES FED AND KEPT OPEN BY IMPURITIES IN THE BLOOD

Whenever a sore refuses to heal it is because the blood is not pure and healthy, as it should be, but is infected with poisonous germs or some old blood taint which has corrupted and polluted the circulation. Those most usually afflicted with old sores are persons who have reached or passed middle life. The vitality of the blood and strength of the system have naturally begun to decline, and the poisonous germs which have accumulated because of a sluggish and inactive condition of the system, or some hereditary taint which has hitherto been held in check, now force an outlet on the face, arms, legs or other part of the body. The place grows red and angry, festers and eats into the surrounding tissue until it becomes a chronic and stubborn ulcer, fed and kept open by the impurities with which the blood is saturated. Nothing is more trying and disagreeable than a stubborn, non-healing sore. The very fact that it resists ordinary remedies and treatments is good reason for suspicion; the same germ-producing cancerous ulcers is back of every old sore, and especially is this true if the trouble is an inherited one. Washes, salves, nor indeed anything else, applied directly to the sore, can do any permanent good; neither will removing the sore with caustic plasters or the surgeon's knife make a lasting cure. If every particle of the diseased flesh were taken away another sore would come, because the trouble is in the blood, and the **BLOOD CANNOT BE CUT AWAY.**

The cure must come by a thorough cleansing of the blood. In S. S. S. will be found a remedy for sores and ulcers of every kind. It is an unequalled blood purifier—one that goes directly into the circulation and promptly cleanses it of all poisons and taints. It gets down to the very bottom of the trouble and forces out every trace of impurity and makes a complete and lasting cure. S. S. S. changes the quality of the blood so that instead of feeding the diseased parts with impurities, it nourishes the irritated, inflamed flesh with healthy blood.

The sore begins to heal, new flesh is formed, all pain and inflammation leaves, the place scabs over, and when S. S. S. has purified the blood the sore is permanently cured. S. S. WYCLIFFES WILL SURRENDER

Cherokee Outlaws Arrange to Give Up to County Authorities on Statehood Day.

Muskogee, I. T., Nov. 13.—Tom, Charlie and Jim Wycliffe, the three Cherokee outlaws who, after killing a deputy marshal, have defied the efforts of the government to capture them for more than a year, have announced that they will voluntarily surrender at Tahlequah, Saturday, immediately after the statehood proclamation has been issued and the present regime of marshals in Indian Territory is out of office.

The surrender of the Wycliffes will be one of the big features of the statehood celebration at Tahlequah. The plan of the Wycliffes seems to be complete. Through their friends they have conducted negotiations with the county officers of Cherokee county, made arrangements to give bond and in all probability, they will not go to jail at all but will be released upon their bond.

The career of the Wycliffes has been spectacular. While scouting from the officers, charged with murder on March 11, 1906, they ambushed and killed Deputy Marshal Ike Gilstrap, who, with a posse, was after them, and wounded two deputies. The fight took place in a ravine in the Grayhawk hills. Marshal Darrough called upon the government for assistance in rounding down the Wycliffes. He was given 100 picked men and a month was spent in the pursuit, but the Wycliffes were never approached by an officer, and they were never more than 50 miles from the scene of ambush.

The bitter hatred of the Cherokees for the officers and the extremely rough country enabled the outlaws to

elude their pursuers successfully. Bloodhounds were put on the trail and the hounds were killed. Marshal Darrough finally gave up, thoroughly baffled. The chase cost the government about \$6,000.

In the meantime the movements of the Wycliffes were well known to their friends, and newspaper men went into the fastnesses of the Cherokee hills, sought out the outlaws, found them and got their statements.

They have always declared that they were willing to stand trial in the state courts and could prove ample justification for killing Gilstrap, but they could not get a fair trial at the hands of the federal officials.

It is understood that one of the pleas of the defense will be that Gilstrap went to the home of Charlie Wycliffe and insulted Mrs. Wycliffe and that the father of the three outlaws had been nearly beaten to death by another deputy marshal because he refused to give information as to the whereabouts of the boys.

MAJOR CUSEY TAKES MORE APPLICATIONS.

Major Cusey, who has become a familiar visitor to Ada, due to his frequent tours of Territory towns, representing the U. S. Indian agent in receiving applications for the removal of restrictions and taking testimony in support of same, made Ada again Tuesday and Wednesday.

On this trip he handled some 18 applicants here.

REFUSES RELIEF TO OIL MEN

Secretary of Interior Declines to Modify Rules Governing Leases.

Washington, Nov. 13.—Secretary Garfield yesterday listened to the protests of a committee of twenty representing the Mid-Continent Oil Producers association against a recent amendment to the regulations of the interior department governing oil leases in Indian Territory.

Secretary Garfield stated that the regulations had only been made after mature deliberation and he indicated that they probably would not be changed.

The amendment authorizes the secretary to increase the royalty to be paid to the Indian allottees to the extent of sixteen and two-thirds per cent of the gross proceeds amounting from any lease, and three hours of time were spent in trying to convince the secretary that the regulation is unbusiness-like and may be used to work great hardships.

It was contended that even after a

contract had been entered into the secretary could arbitrarily increase the amount to be paid to the Indians without even consulting the lessee. This, it was urged was unnecessary because the Indians are largely of white blood and can care for their own interests.

The principal speakers were N. Y. Franchot of Okla., N. Y. W. H. Johnston of Bartlesville, I. T.; James H. Veasy of Bartlesville, and Representative E. B. Vreeland of New York. With the secretary sat Assistant Attorney General Woodruff, Commissioner of Indian Affairs Leupp and several other representatives of the interior department who assisted in formulating the regulations.

Mr. Woodruff declared in response to some of the representations that no increase in the royalty had ever been exacted except in case of assignment in which case, he contended, it was entirely fair.

CARTER'S MAJORITY

Tishomingo, I. T., Nov. 12.—C. D. Carter's plurality in the primary, 3,777; C. D. Carter's plurality in the general election, 13,992.

It having come to our notice that an erroneous report is being circulated in regard to the majority received by Congressman-elect C. D. Carter, in the recent primary and general elections, and believing that such false reports were circulated in the interest of the contest of Horen G. Disney, we heretofore give a statement of the entire vote received by Carter, and his next highest opponent in such elections.

In the interest of fairness, we ask all readers to publish the same over our official signatures.

Primary election—Carter, 11,147; Disney, next highest opponent, 7,270; Carter's plurality in primary, 3,777.

General Election—C. D. Carter, 29,859; L. G. Disney, next highest opponent, 15,982; Carter's plurality, 13,992.

This embraces the full vote with the exception of about 100 unassigned votes polled in the southeast corner of Mus-

kogee county, at the primary election, which was never officially reported to us. Respectfully,

H. L. MULBROW,

Chairman Democratic Congressional Committee 4th Congressional District of Oklahoma.

Food High in India.

In a report commenting on the unrest in India, the United States consul general at Calcutta ascribes the reason for much of the dissatisfaction to the high prices of foodstuffs. He says: "During the last three years the harvests in Eastern Bengal and Assam have been considered poor, especially the rice crop, which is the staple food of the laboring and poor classes. In 1901 1 rupee (32 cents) would buy twenty-six pounds of rice, whereas in 1906 it would buy only ten pounds and in 1907 about eight pounds. Thus the Indian, whose main subsistence is rice has to pay nearly three times as much for that article now as he did in 1901. For the most part his wages have not increased at all, and where wages have been advanced not a single instance can be found where the increase has been three times. The food grain crops of 1907 promise to be very large, and it will be interesting to note any tendency to return to the prices of food grains, especially rice, that prevailed three years ago, and what effect it any, this return to normal prices will have on the condition of 'unrest' in Eastern Bengal and Assam."

VERY SMALL INDEED is the little chap that takes his first bath in the wash basin. He'll grow though and while growing from the food he eats, will constantly need DRUGS FOR BABIES.

Get them here and you'll be certain they're the precise thing that's required from the talcum powder up to the soothing syrup. All drugs for baby, as well as other necessities can be found in abundance at this store.

Secretary Taft can look over the financial situation and prove an alibi. Chicago water was forced out of stocks last week to fill the Panama canal.

A physical director in Cleveland says cigarettes are harmless. To be sure it's the smoking of them that hurts.

When Secretary Taft returns he will find the Oklahoma constitution in operation and the people happy that they did not postpone.

By the way during the free silver scare was there any trouble about cashing a good check at any bank west of Manhattan?

A scientist informs us that the spine controls 3,000,000,000 nerves. A lot of financial spines seems to have lost

their connections recently. It seems that Mr. Morgan and Mr. Rockefeller rushed to the rescue with bundles of money that the people had deposited in the banks.

The attention of a lot of erstwhile Wall street financiers is called to the fact that Nebraska and Kansas are in need of a lot of corn shuckers.

Now that Japan has manifested a don't-care-a-cent feeling about the fleet rendezvous in the Pacific perhaps the president will no longer deem it necessary.

Now that Secretary Cortelyou has discharged the obligation, will Chairman Cortelyou please come through with the facts about those campaign contributions?

The newspapers that are praising certain eminent financiers for rushing nobly to the rescue during the crisis would doubtless sing the praises of the man who applied the torch and turned in the fire alarm.

Mr. Harriman says there is plenty of money in the country, the trouble being that it is not circulated fast enough. The newspaper paragraphers are doing their best now let Mr. Harriman stop plowing and lend his valuable assistance.

CENTER DOTS

Probably The News has already published an account of the terrible accident at the home of W. W. Mannin, near here last Saturday, in which his little daughter was killed by the discharge of a shotgun which her older brother was tinkering with. Though the charge blew the back portion of her head off the little one lived two hours. A large crowd of sympathizing friends attended the funeral at the Center cemetery which was conducted by Revs. Coggins and Butler.

It was a great shock to the community. May God give father and mother grace and strength to bear up under their load of grief.

Saturday was a day of grave misfortune in this community. In the afternoon Charley Grinstaff's little girl fell out of her mother's lap and broke her arm.

RECEPTION AT THE KATZ HOME.

Society People of Ada Enjoy a Brilliant Function.

Not often in Ada is there given so splendid a social function as that at the home of Mr. and Mrs. Ben Katz, Tuesday evening.

The invitations read: 'Beeste Katz would be honored to have your presence to meet her sister, Jessie, Tuesday evening, November the Twelfth, 1907, from 8 to 12.' Miss Jessie recently came out from Kentucky to join the family in their new home in Ada.

There were some thirty invited guests and during the hours designated there was a continuous program of rare entertainment. The spacious parlors were appropriately decorated, the refreshments were notably delicious and elegantly served and the arrangements throughout were such as to constitute an illustrious example in the art of entertaining.

An early feature, after arrival of guests was an auction sale of the ladies, each sale based on self-boosting data written on cards previously furnished the fair one to be put on the block. At first the gentlemen were a bit timid about bidding, fearing the price had to be paid in cash. But when it became generally known that checks or promissory notes or countercheck money were just as good, the bidding became fast and furious. Toward the last a lady brought as much as \$10,000.00, and she would have brought more, but for the fact that the other fellow was uneducated and so, did not know how to prize the price any higher.

There was an infinite variety of fun and food. At a late hour the guests departed with a lasting remembrance of their gracious and charming hostesses, the Misses Katz.

Those who present Misses Torbett, Fulton, Timberlake, Smith Thompson, Sims, Gowdey, Taylor, Gwyn, Edleman, Verna Edleman, Warren Stovall Harrell, Carr.

RAILS-CLOYD.

At the home of the bride's parents Mr. and Mrs. J. P. Edleman, Tuesday evening Mr. E. M. Ralls and Mrs. Mattie Cloyd were united in marriage. The ceremony occurred at 7:15 o'clock conducted by Rev. E. L. Kirtley pastor of the First Christian church, and only members of the family were present.

Soon after the ceremony the couple left for their future home, Los Angeles, Calif. The bride is well known in Ada and enjoys the highest esteem of our people. Her numerous friends will wish her lines to be cast in most pleasant places, their only regret being that she is to reside so far away from the old home. Mr. Ralls until recently was in the employ of the M. K. & T. railway, but has resigned to accept a position with the Santa Fe in California. He is reputed to be a gentleman altogether worthy of the noble woman he has won.

One of the most pleasing features in "Rufus Rastus in Dixie" is the Fluke Chapel Choir. Carefully trained voices with the accompaniment of a specially built pipe organ, carried by the company, render sacred music that reaches the soul. The rich setting and costuming also leave a deep impression, not soon to be forgotten. Look for the choir to see and hear this great feature at the opera house next Thursday night, Nov. 14.

DISNEY'S LAKEWATER STUNT.

One Loren G. Disney, who imagined he was a candidate for congress in the Fourth district against Charlie Carter, is making several kinds of ass of himself. Carter was elected by a majority of 13,931. His district is solidly democratic and it was only at odd moments that the present congressman was aware that Disney was a candidate against him. Carter carried Atoka, Disney's home town, which is normally republican, by a big majority and also won out in several other republican strongholds. The people wanted Carter and they elected him. Now comes Disney, the defeated, backed by a few disgruntled statehood obstructionists, with a contest against Carter. He holds that Carter is not entitled to citizenship rights under the constitution. The play is obvious. Disney is fresh and premature. He came to Oklahoma from Kansas two years ago with a commission as contest clerk with the Dawes commission. This office he vacated for unknown reasons. Whether invited out or kicked out is unknown. Disney made a vicious fight on Carter and attempted to array white voters against him on account of his Indian blood. During the past few years the republican leaders have been zealous in their "friendship for the Indian. Their love for the Indian is clearly emphasized in the present contest. Disney is a mere atom, he has no weight or influence on Oklahoma citizenship by a contest of the kind carried to congress and then aired. Of course, Carter will take his seat and retain it; and meanwhile Disney will draw a doubtful fee while it pends, but the effects will be unpalatable. Decent republicans should call off Disney—Guthrie Lader.

The Royal Northwest mounted police, after two years' work, have cut an eight-foot trail from Peace river through the Rocky mountains to the Yukon, giving a route from Edmonton to Dawson entirely over Canadian territory. Colonel White, controller of the mounted police, has received a telegram announcing a triumphant arrival at the Pacific coast, after a 700-mile ride on the trail from Edmonton. The trail has been built to Hazelton, where it joins the trail along the Yukon telegraph line, and thus continues to Dawson. Besides affording access to a hitherto inaccessible portion of the country, it will be useful in the transportation of prisoners, who would be able to take advantage of territorial law immediately if transported over the usual route of travelers which crosses American territory.

Miss Mary O'Brien, 300 Myrtle Ave., Brooklyn, N. Y., writes: "Peruna cured me in five weeks of catarrh of the stomach, after suffering for four years and doctoring without effect. In common with other grateful ones who have been benefited by your discovery, I say All hail to Peruna."

Mr. H. J. Hunsman, Oakland, Neb., writes: "I waited before writing to you about my sickness. Catarrh of the stomach, which I had over a year ago. There were people who told me it would not stay cured but I am sure that I am cured for I do not feel any more ill effects, have a good appetite and am getting fat. So I am and will say to all, I am cured for good. I thank you for your kindness. Peruna will be our house medicine hereafter."

Catarrh of the stomach is also known in common parlance as dyspepsia, gastritis and indigestion. No medicine will be of any permanent benefit except it removes the catarrhal condition.

TOLD HIM THE TRUTH. Dad's Indignation Got the Better of His Judgment.

An old German farmer who resided in one of the rural districts of the state of Iowa, was the father of a half-witted boy, whose lack of intellect was the cause of no little anxiety and solicitude on the part of the paternal parent.

"Dot boy Shon," he was heard to remark in the course of a conversation with a neighbor of like Teutonic origin, "he is not ferry bright, aber I don't want you to tell him, because I don't want him to know it."

Meanwhile the young hopeful was driving through the barnyard with a load of hay, which in attempting to turn a sharp corner he unfortunately upset.

The old man immediately became highly indignant. "Shon" he bellowed in a voice of thunder, "you is a plame fool you always vass a fool, you always vill be a fool you not know noddings!"—Judge's Library

OF Little Faith. At the Pine Grove camp ground in Canaan, Conn., a little girl was removed by her mother for disobedience and being naughty to her playmates. The child was told that when she said her prayers at night she should seek forgiveness and ask the Lord to help her be a better girl. Here is the prayer which the youngster made under protest.

"Oh, Lord, I want you to help me to obey my mamma, to help me to be a better girl to help me to be good to my playmates—but pshaw Lord, what's the use? I s'pect you don't believe half I'm saying."

FAMILY FOOD. Crisp, Toothsome and Requires No Cooking.

A little boy down in N. C. asked his mother to write an account of how Grape-Nuts food had helped their family.

She says Grape-Nuts was first brought to her attention on a visit to Charlotte where she visited the Mayor of that city who was using the food by the advice of his physician. She says:

"They derive so much good from it that they never pass a day without using it. While I was there I used the Food regularly. I gained about 15 pounds and felt so well that when I returned home I began using Grape-Nuts in our family regularly."

"My little 18 months old baby shortly after being weaned was very ill with dyspepsia and teething. She was sick three weeks and we tried every thing. She became so emaciated that it was painful to handle her and we thought we were going to lose her. One day a happy thought urged me to try Grape-Nuts soaked in a little warm milk."

"Well, it worked like a charm and she began taking it regularly and improvement set in at once. She is now getting well and round and fat as fast as possible on Grape-Nuts."

"Sometime ago several of the family were stricken with LaGrippe at the same time, and during the worst stages we could not relish anything in the shape of food but Grape-Nuts and oranges, everything else nauseated us. We all appreciate what your famous food has done for our family."

Broken Rails

Among all the causes of railroad accidents in the United States none is mentioned with greater frequency than the broken rail. Many causes are assigned, and doubtless many are contributory. An excess of phosphorus not easily eliminated by the Bessemer process by which nearly all American rails are made, has been most commonly blamed, but some of the best mechanical engineers now regard this cause as unimportant. Improper shape and a lack of pressure in rolling and in heavy rails proportionate to that which was available for the lighter rails of the past are more important faults. An excess of carbon is another. The fault of shape is the thinness of the web or shank of the rail and the thinness of the base. The disproportion between these parts and the head of the rail tends to a lack of uniformity in texture after cooling. The excess of carbon is not the fault of the railmaker but of the railroads. The more carbon the harder the rail of course and the harder it is the better it will resist the frictional wear. The desire of the railroads to minimize the cost of trackage repairs has led to demands for steel of a higher and higher per cent of carbon until now American rails are the hardest in the world. Most important of all says

Youths' Commission is the strain imposed upon rails by the great weight and high speed of modern trains. Mechanical engineers believe that with the present state of rail the limit of safety is reached at an axle load of 17,000 pounds. Yet many trains considerably exceed that figure. The American Railway Engineering and Maintenance of Ways Association and the American Society for Testing Materials have adopted specifications for a standard rail heavier in the web and the base than the one now in use and these specifications have been approved by the American Society of Civil Engineers. Meanwhile the head of one of the greatest railway systems in America has withdrawn his rail contract from a company whose product has been unsatisfactory to him and given it to a concern from which he hopes to get better results.

Long before many American universities established summer schools chautauquists stood for the thrifty use of vacation days in pleasant and profitable study. Like every other movement out of the common methods and largely patronized by women the chautauquan work was derided by conservative persons. It was the butt of jokes such as are now directed against correspondence schools. It was called the intellectual tea party, the playground of culture. But it slowly won respect enlisted the services of good teachers and gave its brief periods of enlightenment to thousands of teachers too busy in winter to think of much outside of classroom routine. President Roosevelt who knows the country pretty broadly calls chautauquists the most American thing in America. This summer there have been between 300 and 400 assemblies embodying the chautauquan idea besides the summer schools and educational conventions which represent the same American principle of diffusing culture and instruction to the greatest possible number of persons.

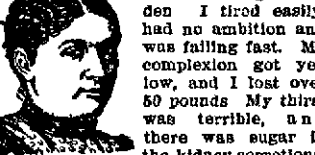

One of the drawbacks to the use of long distance electricity has been the liability to breakdowns caused by accidents. Including those due to lightning which result in shutting off power and often in unpleasant and costly interruption of traffic. Many localities depending on power transmitted over long lines of wire have had such experiences. Syracuse uses for its transit system electricity generated at Niagara Falls and has had some very annoying occurrences of the sort and as a consequence the traction company adopted the policy of keeping its local power houses in readiness for use. Now it is announced that the line from Niagara Falls has been duplicated and that henceforth it will be practically impossible for the current to be shut off completely. It is asserted most positively that neither thunderstorms nor any other influence can put both lines out of commission at once. At any rate the precaution seems to be a wise one. Electric power that is likely to give out when most needed does not command the confidence of the community it serves.

A woman in a Connecticut town attempted to turn on a switch control lighting electric lights by using an iron poker. She was found in an unconscious heap on the other side of the room when the electric excitement over the poker interlude was over, but being made of stern New England stuff, she recovered from the shock. In spite of its advanced civilization there are yet in this twentieth century people who know no better than to monkey with the buzzsaw.

My doctor kept me on a strict diet, but as his medicine was not helping me I began using Doan's Kidney Pills. They helped me at once, and soon all traces of sugar disappeared. I have regained my former weight and am perfectly well."

A Pardonable Fault

Dr. Edward Everett Hale, discussing a rather finicky attack that had been made on certain recent statements smiled and said: "But who or what is blameless? It is like the case of the Scottish hen. An old Scottish woman wished to sell a hen to a neighbor. 'But tell me the neighbor said 'Is she a thegither a guid bird?' Has she got nae faults, nae faults at all? 'Aweel Margot' the other old woman admitted 'she has got one fault. She will lay on the Lord a day.'"

Dr. C. F. Simmons, San Antonio, Tex. Dear Sir—I have just returned from a tour of three days inspection of your Texas County, Texas Ranch and I will gladly say that I found it equally as good as you claim and I believe is even better, at least 95 per cent of the land would be fine farming land.

Well as to the size of the land, I find it is as fine as I ever saw. When this section gets a rainfall which it soon will have and must have as the country demands it, this section will be equal in value with any section in the state, because you can grow whatever you wish to plant, and it can be kept growing with the abundance of water which is of valuable either in shallow or arid land.

I find sufficient timber for posts, and wood the balance of the land is mostly prairie with some small brush and pecan.

Yours truly, C. M. LINDHOLM

OLD SORES FED AND KEPT OPEN BY IMPURITIES IN THE BLOOD. Whenever a sore refuses to heal it is because the blood is not pure and healthy, as it should be, but is infected with poisonous germs or some old blood taint which has corrupted and polluted the circulation. Those most usually afflicted with old sores are persons who have reached or passed middle life. The vitality of the blood and strength of the system have naturally begun to decline, and the poisons which have accumulated because of a sluggish and inactive condition of the system, or some hereditary taint which has hitherto been held in check, now force an outlet on the face, arms, legs or other part of the body. The place grows red and angry, festers and eats into the surrounding tissue until it becomes a chronic and stubborn ulcer, fed and kept open by the impurities with which the blood is saturated. Nothing is more trying and disagreeable than a stubborn, non-healing sore. The very fact that it resists ordinary remedies and treatments is good reason for suspicion, the same germ-producing, cancerous ulcers is back of every old sore, and especially is this true if the trouble is an inherited one. Washes, salves, nor indeed anything else, applied directly to the sore, can do any permanent good, neither will removing the sore with caustic plasters or the surgeon's knife make a lasting cure. If every particle of the diseased flesh were taken away another sore would come, because the trouble is in the blood, and the BLOOD CANNOT BE CUT AWAY. The cure must come by a thorough cleansing of the blood. In S. S. S. will be found a remedy for sores and ulcers of every kind. It is an unequalled blood purifier—one that goes directly into the circulation and promptly cleanses it of all poisons and taints. It gets down to the very bottom of the trouble and forces out every trace of impurity and makes a complete and lasting cure. S. S. S. changes the quality of the blood so that instead of feeding the diseased parts with impurities, it nourishes the irritated, inflamed flesh with healthy blood. Then the sore begins to heal, new flesh is formed, all pain and inflammation leaves, the place scars over, and when S. S. S. has purified the blood the sore is permanently cured. S. S. S. is for sale at all first class drug stores. Write for our special book on sores and ulcers and any other medical advice you desire. We make no charge for the book or advice.
